

COMING BACK

I'm getting all your emails
Got your letters in a stack
Family pictures in my helmet
they help lighten up my pack
I may be in the mountains
or in a danger zone
but I'm telling all my buddies this soldier's coming home

I'M COMING BACK

**Feel like I never left at all
I don't know when – I'm not sure how
All for one and one for all
We're fighting hard and standing proud
Your love keeps me on track
That's why I feel I never left, and
I know I'M COMING BACK**

I smell dinner on the table
and our kids are safe in bed
If they're asking where their daddy is
Please tell them what I've said
I may be in the desert, or
landing on a beach,
Working with my buddies just fighting for world peace

REPEAT 1ST CHORUS

I'm finally home a week or so
bills and Lego's by the mile
What used to drive me crazy
hey – it now just makes me smile
I take you in my arms again
You've kept our life on track
You made me feel I never left
And I knew that I'd come back

I CAME BACK

**I feel like I never left at all
Along came when - only God knows how
'cause I had a few close calls
Just thinking 'bout my family
Your love kept me on track
That's why I felt I never left, and
Baby I CAME BACK – (repeat last two lines)**
