

DENTED, NOT BROKEN**FEMALE CAST**

Got my pedal to the metal on a hot dance floor
I'm gonna designate a driver tonight
I'm just a little wrecked cause you went out to score
and crashed at her place last night

You're gonna need a tow truck if you show up here
I won't top your tank off no more
you had your clutches in me but I'm shifting gears
now I'm passing you with four on the floor

CHORUS

I'm dented, not broken
my heart's still beating the pace
I'm (all) revved up and smokin'
I'm dancin' all over this place
baby I'm still in the race

I thought you and me we had a running start
and we would hit that checkered flag as a team
I'm sick of working pit crew while you run your laps
driving other cars in your dreams

You peeled out looking for a brand new body
and knocked a bit of chrome off my trim
but I'm buffed up now and I'm looking cherry
I'm as red hot as I've ever been

REPEAT CHORUS

I've got to shake you off of my tail
before you make my motor fail
Too many times you have tried to swerve me
It's not a race now, it's a demo derby!!!

REPEAT CHORUS ...

(818) 469-7720

(877) 867-4568
