

THAT WAY

You picked me off the floor
When I fell in aisle 4
with cans and coupons everywhere
It feels real good to smile
No one's held me for a while
Could you be a man who really cares?

**There's something all girls know
Most guys just come and go – they go**

**(and) Guys don't call back
They'd rather watch the game
They don't open doors
and they show up late
They never hear what we say
and you can't treat me THAT WAY**

Test number two
A date with no drive-through (and)
I think you scored some points tonight
So I kissed you at the door
talked on the phone some more
but I still can't tell if this is right

Repeat pre & chorus

Bridge: Good men are hard to find
 But you're the one who finally changed my mind

**'Cause - You call back
Now we both watch the game
You open doors when we stay out late
you usually hear what I say
'Cause you treat me THAT WAY
(repeat final chorus)**

**and You treat THAT WAY
'Cause you treat me THAT WAY**
